

UnePerm

LongTerm Dialysis Catheter

Newtech Medical Device

We develop, manufacture, market and support cutting edge vascular access devices and accessories to meet the clinical needs of the medical industry, particularly in the field of interventional cardiology and dialysis. Our company's engineering and applications expertise provides superior products whose progressive designs accommodate advances in medical device and whose quality anticipates the requirements of our professional clients and the patients they serve.

Currently one of the largest manufacturer & importer in the field of Cardiology, Nephrology & Surgical Disposables in INDIA.

LongTerm Dialysis Catheter

Newtech Medical Devices™ UNEPERM dialysis Catheter is a reliable long-term dialysis catheter that consistently delivers high flow rates with low venous and arterial pressures.

Standard Kit Contains :

- Longterm Dialysis Catheter
- Vessel Dilator
- Valved Peelable Introducer
- Introducer Needle
- Guide-wire
- Tunneler (Tocar)
- Adhesive Wound Dressings
- Heparin Caps
- Gauze Sponges
- Scalpel
- Hollow Syringe
- Needle with Suture

Product Feature

Double D Design

Newtech UNEPERM Long term dialysis catheter is made of double D design tubing, which provide excellent flow with low pressure.

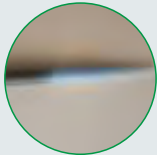

Various of Lengths & tip-to-cuff distance

Our long range of catheters help in securing the desired catheter for diverse patient sizes.

Carbothane Material

With second generation Carbothane polyurethane material which facilitates percutaneous placement also this resists collapse during treatment. Which also gives our catheter excellent flexibility.

Infinity tip transition

Our Peel away catheter comes with unique infinity tip transition, which provide excellent insertion and helps in minimizing trauma .

Cuff

Newtech UNEPERM Long term dialysis catheter has 9mm of cuff length.

New Tunneler

With atraumatic tip and back end our tunneler helps in minimizing trauma.

Short Term Dialysis Catheter

Newtech Medical Devices™ UNECATH dialysis Catheter is a reliable long-term dialysis catheter that consistently delivers high flow rates with low venous and arterial pressures.

Product Feature

Soft Tip

Newtech UNECATH Short term dialysis catheter has been able to Reduces trauma to vessel wall upon introduction and in-situ. The radiopaque catheter and tip facilitates vessel location when visualized by X-Ray.

Curved Extentions

The extension are curved for jugular vein approaches to make the catheter more comfortable for the patient.

Biocompatible Polyurethane Material

With new generation Biocompatible polyurethane material which is tested for toxicity and hemocompatibility and this become softer in body.

Rotating Suture Wing

Rotating suture wing provides secure external anchoring catheter/vein interface .

Antimicrobial Heparin Cap

Specially made adaptor helps to avoid infection.

Multi-Lumen Available

Newtech's Unecath short term dialysis catheter is available single, double, triple lumen for infant and adult.

UneCath

Short Term Dialysis Catheter

**CAUTION:**
Inappropriate choice of design of device for the intended insertion site and over- insertion of dilator or guide wire may lead to fatalities from haemolysis or haemopericardium following the insertion of these devices.

RECOMMENDATIONS:

- Use length marked catheter with soft tip and proper sizes.
- Use length marked guide wire. **If any resistance is felt during advancement, the needle should be pulled out with the wire still inside**, and the procedure repeated. This reduces the risk of the wire being cut off by the needle tip.
- Use short dilator or dilator with stopper
